Portable Digital Heating Thermometer Tools kids Baby Adult Medical Thermometre Body Fever Temperature Measuring Oral And Rectal

★★★★★ (2 customer reviews)
Brand: Epheemeral

\$4.36

°C/°F Switchable: Temperature reading shows in the Fahrenheit and Celsius. Press and hold the On/Off button for 4 seconds to switch. LCD screen with units is convenient to read.

Highly Convenient: Fast & Accurate Measure. Clear lighted display offers a convenient and high-definition reading even at darkness. You can take temperature under the tongue, under the armpits, or in the rectum to get a reading in 1 minute.

Beep to Prompt: Once the thermometer reaches the highest temperature within its operation range, its screen will flash and beep to remind you to check the result.

DESCRIPTION REVIEWS (2)

Description

Sturdy and Reliable: LCD monitor is in high definition so it displays results clearly. The unit features sturdy materials that offers lasting service. The soft probe is friendly for sensitive baby skin, safe for your babies, kids and pets.

Easy to Clean: Easy to clean, wipe with water or medicinal alcohol after or before each use. Store this oral thermometer in the hard case that comes with the fever thermometer.

Measure like a pro

Before you start measuring – For just a minute, keep your mouth closed, and breathe through your nose only.

Right position – Make sure the tip of the thermometer is to the right or the left of your tongue root. Measuring in these so-called 'heat pockets' will give you the most reliable results.

Measure like this – Place the thermometer in your mouth, click the button, and wait for the beep. 10 seconds, that's all it takes!

Keep it clean – Clean the tip after every use.
