

Workplace singularity platform

Use your voice to sync tasks.
Control your business
and make things happen.

Performance anywhere.

Manage workforce progress handsfree using Hubbi, the only chatbot linked to your performance data on IOS, Android, Alexa, Apple CarPlay & Android Auto.

0:00 / 2:17

Take Targa for a spin.

Here's how it works.

1 Plan

Synchronize to succeed.

The platform auto syncs goals, strategies, initiatives and action items to insure they are properly designed and aligned simplifying workplace complexity.

0:00 / 0:56

0:00 / 2:54

2 Track

Monitor to succeed.

The platform provides a 360 view, team view, and personal view to monitor progress and a one-of-a kind template so teams can schedule and run meetings connected to both Google Calendar and Outlook.

3 Analyze

Measure to succeed.

The platform automatically tracks day to day activities in the background and anticipates future performance based on historical data. Reports can be generated and customized diagnostic tools incorporated.

0:00 / 1:45

0:00 / 1:56

4 Execute

Automate to succeed.

The platform provides custom Action Bots that perform low value work and pull data to and from critical 3rd party apps.

Take Targa for a spin.

**Here's what they're saying
about us.**

Richard Chamberlain

Manager, Research Performance

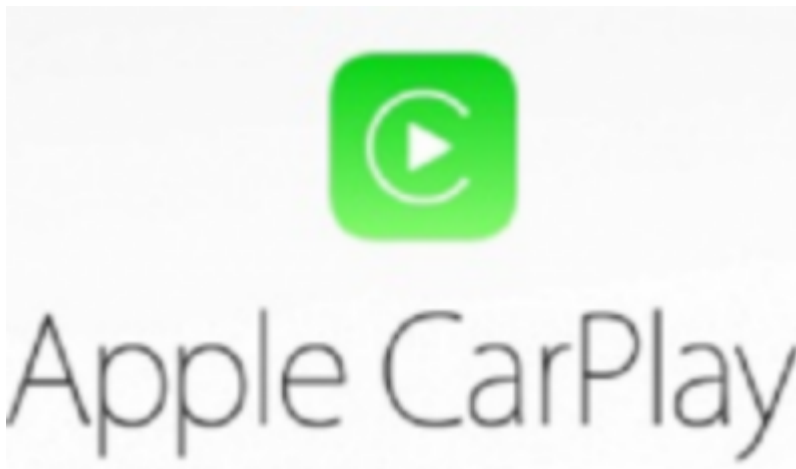

As one of the first Hubster adopters, for me and my team it has proven to be a lifesaver. It has reduced by 50% the time required to simultaneously manage 40 to 50 research projects.

Partners

Targa, as a workplace singularity platform, has partnered with many of the premiere cloud companies, system integrators, mobile operating systems, business intelligence platforms, and 3rd party apps. Leveraging the network of partners, Targa's ability to auto sync the business process, consolidate resources and automate work is unmatched, propelling workforce capacity and capability to new heights.
