3-in-1 high-efficiency filter: It can remove all particles as small as 0.3 microns in diameter. When the nylon pre-filter and activated carbon layer filter smoke and odors, it keeps you and your family's air clean

⚡ Silent fan operation: Very low noise during operation (<21dB, 1-low fan level, 2-medium 30dB, 3-high 45dB), achieving ultra-quiet purification effect, allowing you to sleep or read
Small design but powerful: small and space-saving air purifier, small and compact, quickly remove all kinds of pollutants, speed up to 150 cubic meters / hour, including dust, allergens, pollen, pet dander, mold spores, cooking and smoke smell

360° all-round filtration: very suitable for quickly changing the air in the bedroom, study, living room or kitchen, and clean and healthier air
