I work in a garden center where I am pruning every day for at least a couple hours. These are perfect little pruners to trim any small flowers or plants! Be careful though-they are extremely sharp and will cut through skin (I speak from experience). I recommend gloves always. They are very comfortable to hold and very easy to lock closed. They even have a small rubber cap to protect you when you store them.

So far these have been great. They are comfortable to hold, they glide very easily which makes pruning easy and they are precise. I like having the cover as well, it makes me feel a little safer in the household. I spent time researching and think it paid off.

I grow cherry tomatoes in my aerogarden and this tool helps me with the seemingly endless amount of pruning my plants need. I also use them to snip the fresh lettuce I grow in containers every summer. Sharp, precise and easy to lock. The orange safety tip it comes with is easy to lose, which I did after about a week.

Super5 2020-08-22 16:20:12

These are so precise in cutting, I don't know what I did without them before hand. I think I need to get a second pair to keep not only in the garden but for household use as well. Very sharp and very easy to use.

Christina Murphy 2020-06-19 16:20:12

I really appreciate the lightness of these snips, they're not heavy or bulky which makes a difference when you're pruning the whole garden. Comes with a nice safety cap for when not in use as well. I found the locking mechanism a little wonky - but effective nonetheless. I would like to see a little place to hook a lanyard to it but that's a song for another time. Would buy again.

This pruning snip is perfect for my house plants, especially the smaller ones. The long, pointed blades tuck into the smallest space to trim off dead leaves, flowers, roots without damaging the plant. Light weight. Cuts easily. Locks smoothly and securely. Even has a protective cover for the blades. Love the fact that they are orange. I recommend this product.

carla e. 2020-08-11 16:20:12

I find that these pruning shears do everything that the advertisement says. They are easy to grip, and the cuts are precise. This is my first pair of pruning shears, so I am thrilled that they work so well, and that they are easy on my hands.

Miranda 2020-03-18 19:21:31

Most mornings, I walk around my flower garden to deadhead plants using the thumb-and-finger method. This spring I noticed pain and sensitivity in my thumb joints, and wondered if I was irritating my arthritis with this repetition. On a whim, I looked for a precision pruner and this one is perfect! Small, lightweight and spot-on for dipping into flower clusters and dense branches. I use this tool solely for deadheading and my joint pain is much improved. Highly recommend.
