#### The absolute perfect shade of true red!

I love it so much, I ordered a second one. One for my vanity and one for my purse. I also ordered two bright red lip liners and will keep each with its lipstick. I ordered the new gel lipliner formula from Wet n' Wild. I forgot the name of the shade, but it's only true red in that formula.

#### MY SISTER LOVED THEM

My sister bought all the collection and really liked all on her skin tone. The only color that's not her favorite is Spice but rather than that, she really loved the formula and the lasting power. They leave the lips tinted.
