

"Time in Maps" Virtual Book Launch

★★★★☆ 4.6 5 reviews

The David Rumsey Map Center and Stanford Department of History invite you to join us at the book launch on January 22, 2021 commemorating the publication of *Time in Maps: From the Age of Discovery to our Digital Era*, now available from University of Chicago Press.

Edited by Stanford's Kären Wigen and Caroline Winterer, it features a foreword by Abby Smith Rumsey. All three will be in conversation about the book at the event. The publication of this book stems from the Time in Space: Representing Time in Maps conference held at the David Rumsey Map Center and Stanford Humanities Center in 2017.
