Description

Reviews (1)

- Grippy not Slippy: Liaasyon Mat has double-sided non-slip surfaces so you can perform any movement with confidence. Exclusive designed "Bone" pattern underside stops mat from sliding on floor. The subtly textured surface prevents hands and feet from slipping out of position so you can hold poses no matter how vigorous your practice gets.
- No Lingering Odors: Your yoga mat should not disrupt your practice (or your neighbor's practice) while at home or at yoga class. This Natural, Eco-friendly TPE mat does not have that strong lingering smell like other

mats have.

- Free Carry strap: Easy to go and store. No need to go buy a yoga carrying strap. We've got you covered. Because we love adding value to you and your practice.
