## Description

**AUTO RISE & FALL** - The floating plate will rise and fall according to the water level. When the floating plate is pressed, it will sink below the water level, larger pets can quickly learn how to use the bowl, while smaller pets like cats simply drink from the centre of the disk.

**SLOW WATER FEEDER** - The automatically adjustable floating plate design slows down the drinking speed of your pet, avoiding the yellowing of your pet's mouth and preventing the skin disease caused by the wetness of the face.

**DOUBLE ANTI-SPILL** - Floating plate is reinforced by the fixed border can effectively prevent water splash to your floor. Due to its simple structure, it's easy to assemble and disassemble, thus it's easy to clean its inside and out.

**CAR-MOUNTED USE** - With its particular splash-proof design, you can put it in your car. To a large extent, it prevents water from splashing, even the car is moving. With the dimension 8.8 x 7.2 x 2 in, PETWAKEY-ST pet water bowl can hold about 35oz(1L) in total, which is enough for your pet to drink all day.

**NON SKID** - PETWAKEY-ST Slow Dog Water Bowl features 4 skid-proof rubberized grips at the bottom for proper gripping. With low center of gravity, the bowl keep it stable on the floor. It is hard for your cat or dog to tip it over.

# NONE-SLIP DESIGN

*Four non-slip mats at the bottom  
prevent slipping effectively*

I will be traveling soon with 2 dogs and 5 cats so I was looking at different dog bowls like this one. The price on this one was better than others for a similar bowl. My dog and cats like it and it's easy to clean. Would buy again.

Bought this for my puppy dog. This is much better alternative to having small bowl which i have to refill few times a day. Took few times for the puppy to like but now he is fine and uses it all the time.
