Description

【Lightweight and Portable】 This tripod is light and compact. It weighs only 1.3lbs(0.59kg) and can be folded to 16.77" (0.425m) to save a lot of space. You can carry this tripod with one hand or put it in carry bag, backpack, suitcase. This high-quality lightweight tripod is surely the top pick for travel or home use.

【Quick-Release Plate & Wide Compatibility】 Quick release plate makes it easy to attach and detach your device from the tripod in seconds. Fast transitions between different shots/devices and quickly moving between spots are more convenient. The 1/4" Mounting screw on the plate is compatible with most cameras

【Multifunction Phone Mount】 The phone holder can extend up to 3.6" wide, compatible with iPhone and Android. There is a separate screw hole on one side and the bottom (total 2 screw holes), so you can attach it to the plate vertically or horizontally. The mount can also be used separately, with the help of small support on the back. The groove of the rubber pad grips the phone tightly to ensure the stability.

【19"-56" height & 6.6 load capacity】 Made of high-quality aluminum, this tripod can extend from 16 inches to 55 inches. Each single column has 4 sections and 3 quick Flip locks. The maximum bearing capacity is 6.6lbs(3kg), not recommended for use with heavy and valuable equipment.

【3-Way Pan Head and Bluetooth Remote】 3-way pan head with handle brings vertical and 360 degrees panoramic shooting and helps capture the stunning moment from the perfect degree. Bluetooth shutter allows you say "cheese" within 30 feet (10m).

First off, I love the carrying case the tripod comes with. It makes bringing the tripod around on trips and photo shoots all the more convenient and easy. It's also sturdy as well so I trust putting my phone and my camera on it as well. I can set it up for long exposure photos and it doesn't shake or move at all. The quality of the tripod is amazing. I think it's made of hard aluminum and plastic which explains why it's so lightweight. It's been in my car and I take it everywhere I go in case I want to take a quick snapshot of the sky or any sight I see. It's a reliable tripod!!

I am very impressed with this tripod as it is easy to use and very flexible. I also like its versatility and compact style when folded. The tripod is super compact, lightweight, and can fit easily in most backpacks. The phone mount that comes with it is super useful and adjustable to fit a variety of phone sizes. This is my new go to travel tripod due to how compact and light it is, I would highly recommend buying.
