

Product description

One of the handles is equipped with a backlit LCD screen, the screen will tell you how many calories you consume, how many jumps you make and how long you are training based on the user's weight. Made of durable PVC material, this heavy jump rope is built to withstand daily use and is resistant to bending and deformation, allowing to be used both indoors and outdoors.

Rope skipping is one of the most efficient calorie-burning workouts you can do; our skipping rope with grippy handles work more muscle groups than your average rope, which means you can experience a full-body workout anywhere.

The rope can be extended out to a maximum of 9.8 feet, and shortened easily and small enough to take on the go with the included carrying case without getting tangled. The adjustable length makes the kids jump rope suitable for all ages and heights and a great option if you plan to share it with your family.

High-performance ball bearings cased in ergonomic handles give you a smooth and effortless jumping experience while help avoid twisting, or winding of the rope.
