- You can capture memorable moments with distortion-free and view images on your phone from the wide-angle lens. The app enables you to expand your creativity further and share it on social media with ease.
- When you focus on shooting images, you may set your hands off the joystick and the drone still suspend in mid-air with locked altitude. A perfect drone for beginners, kids, starters, or newbies to have a easy and stable flight experience.
- The pilot will feel easier to control, especially when the drone is out of sight, under headless mode while the orientation of the drone is in relation to the pilot. The drone are also equipped with 3D flips to make your day.
