Virtual wine classes offer opportunities for education, camaraderie and relaxation with your friends, family or co-workers across the US. Wine tasting is fun, but it also offers an interesting way to expand your knowledge of science, history, food and culture. All of this from the comfort and safety of your own home.

Our classes offer flexibility for budgets, tastes and topics of interest. We can tailor the experience to fit your needs.

There are three main goals for all of our classes:

1. Help you figure out what your likes and dislikes are.
2. Demonstrate some key reasons for the differences in the flavors and textures in wine.
3. Communicate what you want with the wine professionals who are there to help.

All we need to know is:

1. What do you want to learn?

2. How many sessions do you want to have?
3. How many wines per session would you like to explore?
4. What is your budget either per bottle or overall?
5. How many people will be joining us on our adventure?

Details on each of those questions are outlined below.
