Nice little charging station. No more messy wires

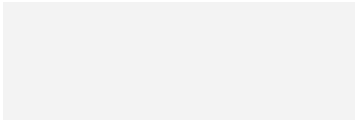

Reviewed in the United States on September 12, 2020

Color: Black **Verified Purchase**

I bought this charging station for my multiple Apple devices (two iPhones, one Apple Watch, and Apple Airpots).

Previously every time I charge these devices the wires got so messy and finally one day I decided to do some research to fix it. This life saving little thing came across and turned out it works so well. It combines my multiple chargers and messy wire into one integrated charging station. Works simultaneously and perfectly. I simply leave it on my desk and it looks nice

too. In addition it has a little portable light in the back. Not bad! I truly love it. Five stars highly recommended.

Good for desk decor and slow overnight charge

Reviewed in the United States on October 31, 2020

Color: Black **Verified Purchase** **Early Reviewer Rewards** (What's this?)

Looks = Sturdy

Feels = nice to touch however flimsy

Charging power is not what I was looking for.

This is NOT a "quick charge" or "fast/super fast" charger

Wirecharge pad would not charge my iPhone 11 or Galaxy S20 with the case on.

For these reasons I returned it.

So far it is doing exactly what I wanted. Charges my watch, AirPods, and phone all at the same time wirelessly. If anything changes I will update the review accordingly. Happy with the purchase.

the wireless charging coil on the back rest has a small sweet spot. for those with cases, I use a waterproof full case and it has to sit exactly in the middle. Also the back rest is designed to fold up and prop itself up at an angle, but that joint area is cheap so phone to charge my note 20 on it flat tom. otherwise it works, th
