Bang for your bucks

This charger really gives you the value for your money. It's the perfect item for the new iPhone set up. Great for setting up next to the bed on the night stand. I use mine to create a night ambience with clock display and soothing music. The charging power is also impressive. Charges the iPhone very efficiently and quickly as well as the watch and EarPods. I would highly recommend this product for anyone purchasing the new iPhone 12. Why spend extra on the apple charger when this one is so sleek and effective.

Inconsistent charger

Reviewed in the United States on December 20, 2020

Color: Black **Verified Purchase**

I have been using this charger for about a week and initially I loved it. Portable, small, convenient. It was perfect. It was able to charge all my devices consistently and quickly. Now after using it for about a week. It is unable to consistently charge my phone. The indicator light at the bottom will flash red/blue and it is unable to consistently charge my devices.

Not ideal for the iPhone 12 mini

It works, but with a slight modification to the stand. I have the iPhone 12 mini and it needs width of a pencil to prop it up to align with charging.
