- **【2 in 1 Bag Sealer and Cutter】** The mini bag sealer made with high quality ABS material and adopt advanced micro heating technology to quickly and evenly seal the bag, can keep food fresh.Built-in mini blade, the button can be fixed to the end, used for opening the express box, packaging bags.
- **【Lightweight and Compact Design】** Food bag resealer is only 3.9*1.5*1.6 inch in size.It has a magnet on the bottom to stick on the fridge or any stationary metal surface.And it has lanyard on top for hung on a hook.so you will keep it handy in your kitchen, outdoor, cabinet or anywhere you need it.
- **【Don't Need to Preheat】** Heat sealer is good to save your time without preheating,once press the cover, the high-efficiency and low-loss heating film instantly reaches the sealing temperature. Place the bag in the middle, then slide it along the edge of bag at a slow and constant speed for airtight seal.
- **【Security Design】** Handheld bag sealer adopts safe structure design. The heating sheet is hidden under the opening and protected by a slidable cover, uneasy to touch and anti-scald.The cutter is under the cover and you need to slide the button to open it.Can seal multiple common packaging bags with thickness that is 0.3mm or less, such as storage bags, chips bags, snack bags, PP, PE, PVC bags etc. Not suitable for Pure paper bags, pure aluminum bags.
- **【Portable to Use】** This sealing machine is powered by 2*AA batteries (The batteries not included).No need to worry about being unable to use when in anywhere no power to charge.Very suitable and portable for use in kitchen,camping,travel,hiking,office,school.
