**OLEOPEL Oleophobic Coating Kit for All Smartphones Tablets Smart Watches and Touch Screens**

OLEOPEL by ProofTech is a cutting-edge, transparent coating that bonds to the glass of your device offering enhanced smudge and fingerprint resistance. This extremely thin and invisible coating replenishes and improves the oleophobic properties of the glass surface by improving it's water and oil repellency resulting in smoother touch and easier to clean surface. This unique anti-fingerprint coating can be used on all touch screens as well as camera lenses and eyewear for a smoother surface and higher clarity.
