Description 1 Reviews

Package Dimensions : 4 5.28 x 28.74 x 7.09 inches

Material Type : Wood

Item Weight : 50.6 pounds

Non-toxic and Harmless--Made pine wood, it is safer than wood-based panels, giving the baby the safest environment.

Available for All ages--The height of the fence can be changed by the lifting bed board. It is suitable for ages 0~6 years, no need to buy extra bed.

Supporting Cradle--The cradle can calm the baby's mood and make it easy for the mother to take care of the baby.

Convenient at Home--The crib can be pushed by wheels, or it can be buckled to keep it in place.

The frame is compact and the spacing is less than 7cm, In line with the standard. Smooth and burr-free.

Product description

Whether you are a mother or will become a mother, this stroller will bring you the best experience.

1. Your first consideration may be its material, and its firmness, which will determine the maximum safety of the baby. After all, the baby spends the most time in bed every day. It uses pure natural pine wood, which is durable and non-toxic. Believe me, it is like your old friend for many years, giving you the safest protection from the inside out.

2. What you need to consider more is whether it is anti-biting. This is a very important detail. The baby likes to use his mouth to test what he has met. The stroller armrest has food-grade plastic protection to protect the teeth from injury and prevent accidental swallowing.

3. Finally, although not the most important feature, you must really like these features: the bottom has a roller that is easy to push, and the wheels also have a buckle to prevent slipping. The storage space below will make your room not be full of baby items.
