## Djiokoi Electric UV Flying Insect Light Trap - Simple, Safe, Clean, an – EDIDIE

- PROFESSIONAL GRADE - LONG LASTING - Easy to use, and recommended by some of the biggest experts in the pest control industry!
- NON-TOXIC AND SAFE TO USE - Unlike most of the competitive insect light traps, our units have covers over the catch area so that the trapped flies are out of view - Simple, clean, silent - no zapping
- POWERFUL UV LIGHT ATTRACTANT - Utilizes the power of direct UV light exposure to attract flies from far distances, and lures them onto the sticky trap inside the hidden catch area
- CAN BE USED IN MANY LOCATIONS - Use this insect light trap in your kitchen, dining area, food hall, food preparation area, barn, and other locations where flies and other flying insects might thrive.
- REPLACEMENT ACCESSORIES INCLUDED - This insect light trap comes with a replaceable glue board and 2 replaceable shatter-protected 25 watt bulbs.
