Quality, functionality & longevity

When I got these suspenders on Saturday I was really jazzed up. I immediately took them out of the box & looked them over. I was very pleased with how they looked & felt. I immediately wanted to put them on. So, I went into the bathroom to put them on. However, as I walked through door one of the buckles hit the door jamb & flew into pieces. I managed to put it back together. After I got them on, I really liked the way they felt & held my pants up and in place. When I returned home while taking them off another buckle banged into the book case & again it flew apart. I put that one back together again. Undaunted on Sunday,

I put them on again. And I went to the store. Upon getting back into my truck the seat belt caught one of the buckles & it flew to pieces again. I wish that people who produce & sell products in Amazon & E-Bay would put more quality into their products as the do in make them look nice externally. I don't mind paying a bit more for a product if it will last more than a few minutes or days or months before they break. Rhe whole reason for going on these sights in the first place is the convenience of not having to go to the store. You see, stores have become like banks. There are lots of cashier stations with no one manning them. Second, is that the product satisfies the needs that I have for the product. Third, quality as it appears is

They work great!

I'm very happy with these suspenders. I wear them daily at work for the last three months and have had no issues so far with them. They are holding their elasticity and I haven't needed to adjust as yet. The clips stay attached very well. I did catch one of the clips on something and it popped apart. It was super easy to fix with a pair of needle nose pliers and back to working great.

Very good value

I considered giving this product a bad review because it was so good my brother stole it. Seriously, it adjusts well and is comfortable. Seems rugged enough even for a work environment, but haven't had it long enough to state that as an absolute fact. I'd recommend it.

The buckles are very cheap and poorly designed. First time I attempted to clasp it on the pants it broke into three pieces. Very disappointed
