** PURCHASE NOTES **

1. The bottom blade cocked is not a quality problem, the 30° angle cocked is specially designed to achieve the best chopping and blending results.

2. The main cover and blade of this electric food chopper are not available to wash in the dishwasher, please just rinse with water.
3. Although this product has full body waterproof design, we still remind you not to throw the main cover into the water to prevent unexpected failures. While rinsing, make sure to close the USB cover tightly.
4. When cleaning the blade, remember to remove the residues in the upper and lower interfaces of the blade, otherwise, it will cause too much resistance of the rotating shaft, rotation speed becomes sluggish, and make noise, even scratch the mixing cup.
5. The Olrid kitchen gadget is available to chop meat or beef without a tendon, but it's better to cut it into small pieces first and do not do it too much in a time.
6. Please do not fill too much at a time, take the "MAX" mark on the cup as the standard. When you feel that the motor becomes sluggish, the power may be insufficient. Please charge in time.

Question: Can this small food processor cut meat?

Answer: Yes, I have been doing this all the time, no problem. But you can only cut a small amount, and you have to cut the meat into pieces first. The quality of this small food processor motor is very good and the power is sufficient.

Question: I'm choosing a suitable mini food processor. Can the capacity of this product meet my daily needs?

Answer: Yes, it has a capacity of 8.45 ounces, which is suitable for family and personal use. It is enough totally for a small amount of food and most condiments.

Question: Can I put this mini food processor blender combo in the dishwasher to clean?

Answer: Eh, I think you can put the bowl in the dishwasher. but I don't recommend putting the main body cover and blades in, because the main body cover is charged, even if it is waterproof, the blades are very sharp, which may damage the dishwashing Machine and other things, In fact, it is very easy to clean, you can wash it by hand.

★★★★★ No more garlic finger smell!

Reviewed in the United States on December 7, 2020
Size: 250ml | Verified Purchase

I looooveee this chopper!!!! This chopper is small in size, easy to store, easy to clean, and do what its supposed to do! Used it many many times for the past week since I got it. I mainly use it to chop garlic as I won't leave the garlic smells on my fingers after making dinner. It also works well with gingers, onions and chilies. Although it's small in size, it is very efficient and powerful. It is easy to use, there's only one button to press!! Since it's holiday season, would recommend as presents too!!

★★★★★ Convenient and chops well

Reviewed in the United States on December 19, 2020

This tiny device is great and doesn't take up much space on my kitchen counter. It chops garlic quickly and you can see exactly how fine you want it. Clean up is easy as well since the blade are not attached, so you just juse it down.

There's a silicone rubber on top for the power and charging. It fits super snugged to keep water out. But I would avoid getting too much water there since there's always a possibility. That area is normally clean anyways. Just hose the bottom area.

We use garlic a lot and this earned a place on our counter.

★★★★★ **Great little chopper!**

Reviewed in the United States on January 19, 2021

I own a electric chopper and another oxo hand operate chopper. I didn't like the electric chopper because I have to find a plug to use it, so I got a OXO hand chopper, but I didn't like it too. The garlic sticks to the food chopper blades and it was tiring to keep pressing to hand chop when you are in a hurry to cook a meal.

With this chopper, I like it the size is just right and I can charge the power with usb. The parts are simple and easy to clean. Overall it served all my needs and I am very satisfy.

★★★★★ **Get it!! You won't regret!**

Reviewed in the United States on January 20, 2021

So, I just got this product and when I opened up the box and help it, you could tell it's good quality. It came lightly charged as all other electronics do, so while I took out the stems of chilis I was using for chili oil, I let it charge a bit. I fit about 10 fat cloves of garlic in that 250ml size (I could fit more but didn't wanna overcrowd) and this thing really did an awesome job at mincing the garlic!! I had fresh minced garlic in seconds!! I also used it to mince my chilis and it definitely did the job! Would recommend this to anyone who wants a portable but reliable mincer!

I used it twice to evaluate after receiving the goods, the price is a little high, but is very practical... the machine is very easy to use, the blade is very powerful, and the punch is very delicate. Also, it takes up no room.

I absolutely love this chopper! It's super easy to use - I just need to press the orange button and it will do the rest of the work. I use garlic a lot, and this chopper helps me a lot! Also, it's easy to clean, I just wash it with soapy water and it is all set. Love it!

Since I received this product, I have used it almost every time I cook. It is very convenient and quick to use. When I was cooking before, when I needed to chop garlic or chili, I needed extra time to slowly cut it with a knife. Time-consuming. It is very convenient when using this small machine. Just put the garlic in and press the button for a few seconds. It is very convenient and saves time and just rinse it after use.

This is amazing stuff!! I am making a small lap blanket and wanted it to be warmer than the usual batting I use. The fusible aspect meant I could fix it to the floppy backing and prevent rucking up while sewing. It adds a gorgeous loft and feels wonderfully luxurious. I will definitely buy again. Photo shows incomplete project.

I recently purchased this to use for bag making however I've had to use it for making Christmas stockings. It has been easy to use as it's iron-on and therefore helped when doing the quilting on the stocking. Glad I purchased this as it's approx metre wide as a lot of these weddings are 18" wide.

Love this. Just one thing to note. When sewing, sobering the thread could stick or knit. This is due to the glue. I placed kitchen grease proof paper underneath. Job done. The bags turned out really nicely.
