 How to Use
 1. Insert the plug into the wall
 2. Turn the timer 0-30min or hold (on)
 3. Exit the ozonation state as soon as the unit turns on
 - Car ozonation, 15 min. Remember to turn on the heater, so that the heating cells are also cleaned.
 - Old buildings, for example 60m2, 2x2x2 hours. If this is not enough repeat ozonation.
 - Boats, caravans, etc. 20-40 min.
 - For buildings of 100m2 or above, we recommend ozonation room by room.
 - Large spaces, eg 2x2x2x2x2 hours. Repeat ozonation if necessary.
 - Ozonation is also suitable for deodorizing clothing and sports equipment.
 Let the ozone act for about 2 hours after the machine has shut down, after which you can ventilate the premises.
 Preferably place the unit approximately 1-1.5 m above the floor.
 Ozonation works most effectively in warm and dry conditions
 mode, the operating time of the ozone production unit will also increase. Cold, humid and dirty air shortens device life.
