- Bipods and shooting sticks
- Pivot Bipod 9"-13"
- Compact and lightweight
- No assembly required; easily attaches to sling swivel stud of most bolt action rifles
- Extends quickly and easily with telescoping legs that have spring return
- Pivot allows for uneven terrain sight adjustments

PRODUCT DESCRIPTION

High Quality Material

--Made from aircraft aluminum alloy 7075, with a non rusting black anodized finish, the bipod is lightweight, strong and built to last.

Upgraded Mount Tension Screw

--The bipod is built with upgraded mount tension screw which is high strength and has deep enough threads to hold tension.

Easy to adjust the length of the bipod

--Slightly pressing the leg release button, you can extend and lock the bipod legs easily and smoothly.

5 settings of the leg length

--The bipod legs have 5 notches. It could be adjusted from 9 inches to 13 inches precisely to meet your need.

Light weight, easy to carry

--Super light weight under 0.78lb, which make it easy to carry and suitable for hunting and range.

Rubber Foot Pad

Built with the rubber foot pad, this tactical bipod is suitable for different environment.

Foldable design

The springs on the legs make it easy to fold the legs up and are not over tightened which makes easy work of keeping silent when hunting.

Great Attachment to Your Rifle

ENGELBERG 9-13 Inches Rifle Bipod permits you to easily rest your rifle on ground or other places, reducing your fatigue and increasing accuracy and stability.
