Powerful Dual Motors

Engineered with 2 powerful motors,this RC monster generates great horsepower which allows the RC cars to run at 13KM/H in a very short time when battery is fully charged.

360° Tumbling Flipping

Made of high-quality plastic and has a strong crash resistance. Forward and backward, turn left and right, 360 degree rotation, double sided drive and flips, keep balance on single wheel running, never roll over.

Small guide wheel design

There are two small wheels at the front and the rear of the car. It can help the car break through obstacles in front or turn over when it encounters a wall.

Sensitive

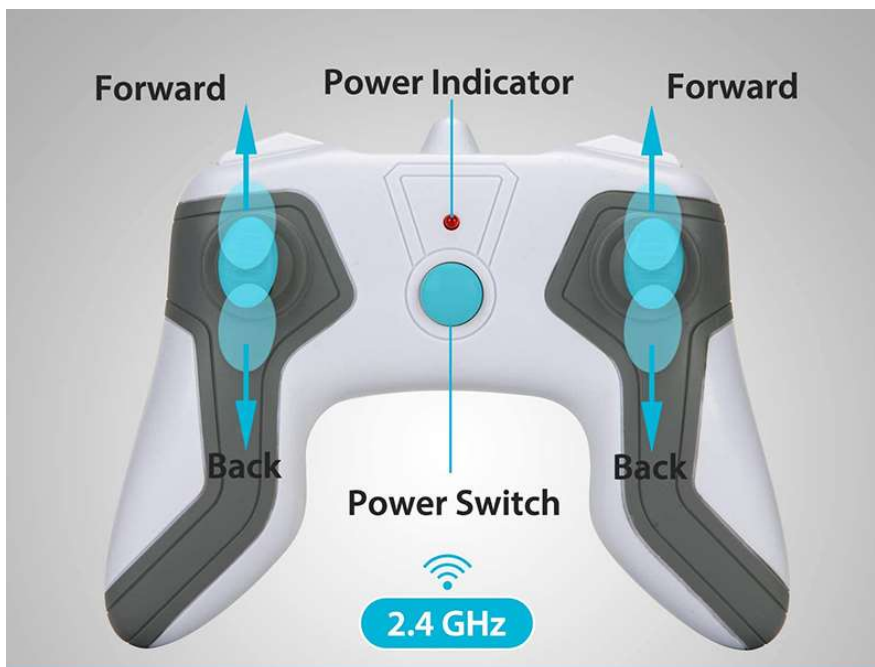

The car is flexible in the events of control and maneuvers forward, backward and turns with ease and in fast motion.

Strong Dual Motors

The RC car with 2 powerful motors generates great horsepower which allows the RC cars for kids to run at maximum speed when battery is fully charged, making this high speed rc race car faster than others.

Batteries Included

In order to let children have a better experience, we equipped the remote control car with 2 rechargeable batteries, and each rechargeable battery can be used for about 20 minutes. And we have prepared the batteries for the remote control, so you can play after receiving the remote control car, no need to buy other parts.
