MaxDuty Bar Cabinet with Bottle and Glass Storage, Black Oak

Excellent piece of furniture. Very detailed instructions and easy to follow. Like a Tardis.... small and compact from the outside but plenty of room on the inside.

The only negative is that I would have liked n exra shelf though, which would have helped create additional space for my glasses... Very suprised it wasn't already supplied as there is room for it! But Loving it.

MaxDuty Bar Cabinet with Bottle and Glass Storage, Black Oak

This bar was Perfect for my needs! I love everything about it! The color is dark the wood is sturdy and is the perfect size. It did take a long time to put together by myself about 2 1/2 hours but it completely doable. The only thing I do not like is the flimsy back piece. I would eventually like to replace it with a more sturdy piece of wood. I also would love another shelf as an option to have two on one side and one on the other. It is definitely worth the cost.

MaxDuty Bar Cabinet with Bottle and Glass Storage, Black Oak

Very nice once you put it together, wich in my case, It took me (hours). Too many pieces of (particle board), and lots of screws in many sizes, after a while I felt overwelmed. It's a bit flimsy once you put it together, I reinforced it with metal brackets in each corner, I really recommend doing that. Note: it doesn't come with lights, I did that on my own, so after all the ordeal, it looks nice and elegant.
