The safer, easier way to pay

MORE INFO

Fits most revolvers and semi-auto handguns, pump shotguns, AR-15 rifles. Simply insert the cable through the action to effectively render the gun unusable. Works on most handguns, pump shotguns, AR-15 rifles wherever you can lock or interfere with the action. The cable is a quick, inexpensive way to protect from misuse and accidental discharges.

MaxLite Universal Gun Cable Lock - Keyed

It's a lock, not complicated. Fits my autos with room to spare.

MaxLite Universal Gun Cable Lock - Keyed

I have another of these so I wanted a twin. This works perfectly for what is intended. I keep a lock on my MaxLite so no-one can grab it and load it. Obviously anyone with the right tools and determination could get it off, but it wouldn't be easy. Kids are going to be stopped.

I got it for peace of mind and it works.
