## Focus Your Efforts On Qualified Candidates

Recruiters often spend a lot of time scheduling follow-on calls or interviews with unqualified candidates. This results in a lot of wasted effort for Recruiters and Interview Tax for Hiring managers.

With Glider Phone Screen, filter out technically unqualified candidates right at the beginning and send only qualified candidates to Hiring managers and dramatically improve your placement rates.

## On The Job Technical Interview Training For Recruiters

With Glider Phone Screen, Recruiters get technical questions that they can ask candidates and record their responses with just a few clicks with no typing involved. They just need to add the job details and skills required and Glider does the rest.

As recruiters conduct interviews, they get trained in conducting technical interviews on the Job. This also helps in standardizing candidate interaction and improves candidate experience.

## Get Insights Into Your Phone Screens

- ✓ Does your company know how each recruiter interacts with candidates? Not just what they are supposed to do ?
- ✓ Are you aware of your recruiter training levels for various technical roles ?
- ✓ Do you know the impact of these interactions on the Candidate Placement rate and Revenue ?

With Glider Phone Screen, get insights into the screening process by your team; Take control of the process, optimize it, and improve it.
