### Battery Maintenance Plus

Features an automatic desulfation program and a special absorption mode that extending battery life and optimizing battery performance.

### Smart Voltage Compensate

The advantage of voltage compensation is to charge your battery more fully and better protect your battery.

### Battery Capacity

Works for batteries rated from 10Ah up to 80Ah.

### Wide Compatibility

Designed for 6-volt and 12-volt lead-acid automotive, marine, and deep-cycle batteries, including regular-flooded, gel, AGM, and maintenance-free, plus lithium-ion batteries.

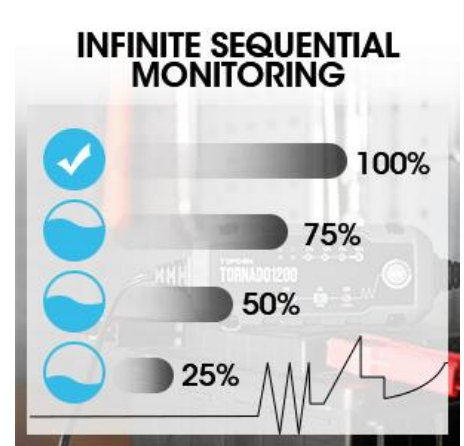

### Over-Charge Protection

The charger will consistently monitor the state or condition of a battery to prevent overcharging, so even if you forget to unplug the charging plug, it will not damage your batteries.

### Spark-proof

Topdon battery charger and maintainer is spark-proof during lead connection, and it automatically detects reverse polarity to ensure a correct, locked-in connection before providing power.

### Infinite Sequential Monitoring

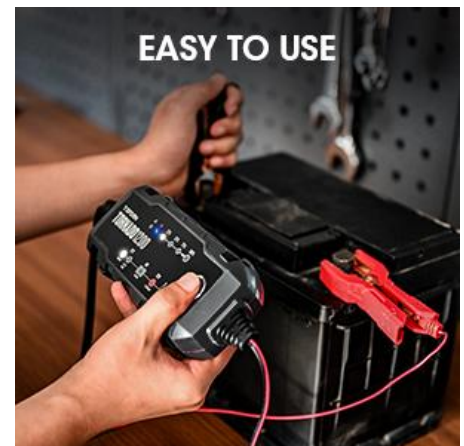

Infinite Sequential Monitoring (ISM) adapts to the battery's needs hundreds of times per second, and if the battery voltage drops too far under load, ISM adaptive charging will resume full charger output power.

### IP65 WaterProof

### Works In Extreme Climate

### Easy to Use

The battery on my one of my trucks got drained I pulled out my hf battery charger for the first time and it did nothing just showed a green light saying that my battery was fully charge but I check i was clearly dead, so I bought the cheapest battery charger I can find on amazon to try out and surprisingly it actually worked

My friend took mine I bought 1 month ago, while her battery died in garage. Bcz I've been working from home for months, it could also happen to me. So I bought this one, which is much cheaper than the one I gave my friend. No complaints and everything is sturdy. Package is looking good

★★★★★ **Great charger/maintainer**

Reviewed in the United States on February 2, 2021

**Verified Purchase**

This charger/maintainer really does a great job. Just attach to the battery, select the mode, and the charger does all the work. The clamps are larger and heavier duty than most other charger that I have used. I used this on my golf cart that is siting most of the winter, and it brought the battery right up to 100% charge in a matter of a couple hrs. This charger was a great value with a lot of features.

★★★★★ **Good price, well made.**

Reviewed in the United States on January 17, 2021

Seems like a quality product with all the features of a more expensive version. I haven't used it enough to know how it'll hold up.

★★★★★ **Great little charger!**

Reviewed in the United States on February 7, 2021

**Verified Purchase**

Here on the farm I remove batteries from tractors and machines that won't be used over the winter and keep them on these maintainers for the duration. Batteries seem to last years longer. This particular charger is keeping four batteries, in tandem, charged and ready for spring. It appears to be performing as advertised.
