Mission/Vision

The Minnesota High School Cycling League was founded in 2012 to get kids on bikes in the great state of Minnesota. We are building **strong bodies, strong minds** and **strong character** through cycling. Our vision is that every youth is empowered to be part of a thriving and engaged cycling community.

This is accomplished through a series of programs that range from those that have never been mountain biking to after school programs, day camps and a cross country racing series.
