Food grade materials Suction cup toys and lick pads are made of food grade materials. The rope material is the same as the armor material. Compared with similar products on the market, it has better bite resistance and chew resistance, higher quality and longer service life.

Powerful suction cup The large suction cup base can improve the suction effect and can withstand greater pulling force. Tip: The suction cup base can only be glued to smooth and clean tiles or glass. It cannot be properly glued to wooden floors or cracked floors.

Multifunctional snack dispenser The ball can also be used as a food dispenser: just fill it with dog snacks, so that when your pet is playing, the snacks will fall off, increasing the dog's interest and attention. This ball uses 360° rubber grain texture, which helps to clean the dog's teeth and gums, remove plaque and tartar. You can also remove the ball and use it as a separate toy, such as playing with a dog.

Bonus gift: How does a sucking pad make your dog fall in love with bathing? The sucker licking pad is also made of food-grade silicone, which can help! This licking pad will make your dog's bath time better, suitable for both . Just apply peanut butter on the licking pad. Use it during pets\* or other times when your dog needs\*.

Warranty We have been committed to providing satisfactory products and satisfying our customers. You have the right to request a refund or exchange within 30 days. If you have any questions, please feel free to contact us, we will do our best to deal with it according to the manufacturer's \*. #### PET TOY

I ordered a new and small GodenDoodle puppy. When it arrived, it turned out that it had become our puppy's favorite toy.

#### PET TOY

My husky dog likes it, but it would be great if it allows larger food to be put in it. The suction cup is so strong that I can't even pull it out! My husky can play and pull up a ball full of snacks for 10-15 minutes, until all the snacks are out, great!
