★★★★★ **Pretty, but cheap**

Reviewed in the United States on June 4, 2020

I do think these are very attractive, but other than that they really don't have anything going for them.

they are hollow, light, and cheap feeling. Because they are attractive I could probably live with that. But then I went to turn an egg in a frying pan and find them to be not well designed. It isn't easy to slide the spatula under the egg because the angle is wrong. I was more scraping the bottom and pushing the egg than scooping under the egg.

Lesson learned! You invariably get what you pay for. These were relatively cheap for the entire set and they looked and felt cheap on arrival. Ended up giving them to a daughter of a friend who is just setting up her first home.

During use, I found their combination is perfect, after washing, it is strong and new, and easy to use.
