BUY IT NOW

- COMFY NEOPRENE wrap is soft against the skin and boosts blood circulation around the wrist, which in turn aids the body's natural healing process during acute injury recovery or relief from chronic aches & pain
- MOISTURE VENTS draw perspiration away from the skin; ideal for all-day wear in front of computer or during high-intensity exercises such as weightlifting, basketball, or tennis

- 4-WAY STRETCH FABRIC ensures evenly distributed stress across the inter-carpal joints; reduces the risk of muscle over extension & sprains, and braces weakened joints
- ADJUSTABLE TIGHTNESS supports the wrist to individual needs; easily-adjustable hook strapping attaches securely to any point along its entire length
