- **Soft & Comfortable:** Made in soft silicone material which are incredibly light and non-obstructive so that you hardly feel them when wearing, the designed comfortable shape ensures a comfort-fit even worn for extended time.
- **Highly Effective:** Designed in Christmas tree 3-flange shape for secure-fit. Earplugs can protect your hearing from being exposed to damaging sound levels. Ear plugs fit into the ear canal to form a seal that reduces sound levels to help prevent hearing loss in noisy work environments. They conform to your ear and effectively block out up to 32 decibels of noise.
- **Floatable with removable cord:** These earplugs are easy-to-use and lightweight so whenever you are in a swimming pool and the earplugs drop out of the ear canals, then these will float on water, letting you catch them and easily insert again. Each pair comes with a sturdy detachable cord which can be hooked into goggles while swimming, so you don't worry to hardly find them in the pool if they did fall out.
