# SMART ROLLER

\$ 27.99 [BUY NOW](#)

★★★★☆ 3.0 (82) [Write a review](#)

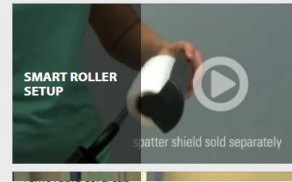

The Wagner SMART Roller will transform your home faster than traditional paint rollers, giving you more time to enjoy your freshly painted walls and ceilings. This paint stick roller is a paint roller that holds paint directly in the handle, eliminating the need for roller trays.

A simple squeeze of the ratchet power trigger directly feeds paint to the paint roller cover. When you need more paint, the refillable paint roller draws paint directly from the can.

The paint tube roller is perfect for medium-sized projects, and the extended handle lets you reach 8' ceilings with ease.

Technical Support - 18 days ago

Make sure that the valve is lubricated and flexible. If it doesn't close properly, it won't seal. Call for help at 1-800-38-8251.

Is there any where to buy a "Fill Tube" part number C817430?

Check the alignment of the fill tube to the paint tube, lubricate the duckbill valve and O-rings with Vaseline. If the problem continues, call us for help at 1-800-328-8251.

can i change the paint in the paint to a different color or can i only use one color paint for each roller?

Answer this Question

Technical Support · 10 months ago

You will need to clean the entire roller assembly when changing colors or one color could bleed in to the other. Feel free to call us at 1-800-328-8251 if you have further questions.

does the new product have a filler top that fits a Home Depot paint can? The can is bigger than the old can.

Answer this Question

Technical Support · 11 months ago

We do not have a fitted lid for the new can styles. Our lids do fit standard one gallon cans.
