TABLE LAMP

I like these lights, and my husband likes them too, so this is already a win-win situation. They are so tall that they can be place d on the sofa table. They look really elegant, the shadows are wide and short, I think this will make it brighter, but I won't say t hey are very bright, but maybe use a different bulb. If this is what you want. It comes with a very cool light bulb. We have a flo or lamp and a table lamp, plus these, can illuminate the entire living room. These give it a warm and comfortable feeling. If you order this lamp, don't judge the shade of the lampshade before putting it together and putting it on the lamp.

TABLE LAMP

I am very satisfied with them.
