- High precision Teditlow Scales can be used for small and large fishing, weighing only 0.2 pounds (about 0.1 kg). Mandible droop 110 lbs! Advanced weight sensors provide accurate measurements that can be converted from lbs. Weight or kilogram.
- [with built-in tape]: you may also want to know the capture length in addition to the weight. We're ready! The attached tape is perfect for measuring items in inches or feet (up to 3 feet).
- [stainless steel hook]: it is made of high quality stainless steel, and the large durable hook hidden in the rear slot is convenient for you to hook and take out from fish mouth, luggage and other items.
- [unlimited possibility] Teditlow electronic fishing scale has special functions, such as weighing unit conversion, data locking and automatic closing. It is absolutely good news for amateurs and keen fishermen!
- [portable tool]: it can be easily held in hand even after long-term use. It's lightweight and portable, with a built-in strap for easy carrying and use. Even better, we also provide 2 AAA batteries for your convenience.
