High quality: each sponge is added with delicate blending ingredients to reduce the accumulation of garbage. Enjoy a refreshing and stimulating bath or shower massage. Use with your favorite soap or shower gel. After use, rinse and dry. Double process: use buffer to remove dead skin cells and soften skin; use soft side to clean and moisturize. Moisturizing: A moisturizing mixture containing olive oil and vitamin E keeps your skin moisturized and clean throughout the day. Just add water: the soap is already in the sponge, so you just need to add water and squeeze to release the foam cleanser, and then start scrubbing. Long lasting: The soap can last for 20 washes. After the soap is used up, it can be used with your favorite moisturizing shower gel or facial cleanser. It is recommended to change it every four weeks and take a bath like a towel. Safety warning: If you feel unwell, stop using it or consult a doctor immediately. Children's skin care products should be used under adult supervision. Note: (1) Before purchasing beauty products, please go to the official website of the product to learn about the ingredients and applicable skin types. (2) If you use it for the first time, try a small amount on the skin behind the ears and other parts to observe whether there is any irritation or allergy. (3) Avoid contact with eyes. If it gets into eyes accidentally, immediately rinse thoroughly with water. If there is continuous skin or eye irritation, stop using it. (4) For children's skin care products, adults must instruct children to use them. (5) The product must be placed where children cannot reach. The State Food and Drug Administration reminds you: Please correctly understand the efficacy of cosmetics, cosmetics can not replace drugs, can not treat skin diseases and other diseases

**Bath sponge**

Love these huge poufs! I've spent a long time trying to find the perfect, giant pouf and this is certainly the largest, heaviest one I've come across. It's big but silky and lathers shower gel great. Definitely feels much more luxurious than the tiny poufs at Walmart or a drug store! Photo center front is the original size, upper right after a few weeks of use (tp for scale).

**Bath sponge**

These are great. They look just like the image, which is a bit of an odd shape. They have to inflate once you get them because I've been vacuum sealed for shipping. They have a little bit of a grit to them so they're not super soft but I like that for exfoliation. I have very very sensitive skin and it's soft enough while still making my skin feel clean & lightly exfoliated. I like the rope in the sponge for easy hanging to dry. It seems solid enough that the rope doesn't tear out if the sponge is wet.

**Bath sponge**

They are sponges. They absorb water & do not fall apart. It is all you can ask for a sponge to do.
