

## Our Mission:

Amplify Technologies serves home maintenance providers by providing mobile app/multi-platform business and home maintenance customer payment solutions for their primary business efforts by streamlining and automating business functions and increasing customer satisfaction and loyalty.

## On the horizon:

We will be offering an array of different apps specifically designed to serve our direct customers in a variety of service industries. As apps are released, information will be available here.

## In the meanwhile:

If you have questions, please shoot us a message [here](#).
