As a dentist's powerful electric toothbrush cleaning-an upgraded version of electric toothbrush, 40,000 micro-sonic dynamic cleaning per minute, can bring the teeth deep and along the gum line into the fluid to achieve an excellent cleaning effect and remove up to 100% dental plaque, significantly whitens your teeth and improves tooth condition. Compared with a manual toothbrush, your oral health will be better in two weeks. 5 optional brushing modes-white (strong), clean (gentle), sensitive (gentle), polished (strong inverted frequency) and massage (soft inverted frequency), customize your experience according to your tooth condition and keep your teeth healthy Strong for life. The whole body can be washed, so you can enjoy brushing your teeth in the shower. 2-minute smart brushing timer-The built-in 2-minute brushing timer encourages you to reach the time recommended by the dentist, and it will pause every 30 seconds. Please always tell you when you need to change the brushing area for effective cleaning. It will automatically turn off after 2 minutes. Usb 4 hours charging and 30 days life-a 4 hours full charge can last 30 days under normal use (2 times a day), with low battery reminder function, and automatically cut off the power after fully charged, compatible with global voltage and universal USB USB cable port, don't worry about charging when going abroad. Remind the brush head to fade-with 3 replacement brush heads, when the blue bristles at both ends fade and turn white over time, this indicates that the brush head needs to be replaced to get the best results. The font-shaped DuPont bristles and small brush head are easy to penetrate between the teeth for thorough cleaning, and the rounded bristles can protect your gums.
