**Question:** Does the ball bounce on carpeted flooring? This looks like an exciting product for my active 3 year old

**Answer:** Yes. The net comes with a small air pump to inflate the balls. They bounce fairly well

**Question:** Can the cheering sounds be silenced without losing the ability to keep score?

**Answer:** Unfortunately, there is only an on and off button, so there is no way to turn off the voice. You may be able to put tape over the speaker so it isn't that loud

★★★★★ Better than the rest!

Rather than go on and on about what I like about this product, I'll explain how it is better than other brands I've used. As a kid, I had at least 2-3 of these and experienced several others when I would visit friends and family. This product is, far and away, the superior make.

- Whoever made it picked all the correct materials for each component.
- The package comes with THREE! ( 3 ) balls so you don't have to chase one around.
- The scoreboard is something I've never seen on

other models.

Product was neay boxed and comes with all the supplies you need to put together including a small screwdriver.

Net needs to be wound onto the hoop which is fairly easy to do. Starting with the net on tbe inside of the hoop, pull the middle (between two knots) of the black side of the net through to the outside of the hoop. Pull the part of the net under the triangular side of the barb and then push into the rounded sections. At this point, you can then pull on the net string and it will straighten itself out. There are an equal amount of

barbs to sections of net.

A remote is included in the package that allows you to reset the score. Baskets are counted as the ball passes through the net.

I no sooner put this up in the basement and the

★★★★★ **OH YEAH BABY!! This is the BOMB!! Entertainment for Hours and Hours!**

I know that we are all struggling with COVID and on top of each other at home all the time. I live in the Pacific North Wet, and we are inside a lot. This has been ABSOLUTELY AMAZING at giving my kids something to do, in their rooms, away from me. We now use this to decide who does dishes, laundry, cleans bathrooms, picks up dog poop, etc. And... It is so much better than sitting and playing video games. Yes, I am one of those people.

But please, let me continue to brag about this product!

First off... As the reigning champion of the house, I think that every house should have one of these.

A) Built tough - now we have a No Dunking Policy, (but I am pretty sure this thing can take it. Being much more of a Shaquille O'Neal style build, I have been keeping it civil. The way that the pad's on the back of the board hold it snugly to the wall make it much quieter and less bouncy. This thing will be around for years!

B) 3 Balls (and not like Crash Test Dummies) - AWESOME! Each kid can have their own ball for games of P-

★★★★★ **Affordable and good quality**

Reviewed in the United States on November 24, 2020

This is a nice product made out of quality materials (for a toy). It is a simple assembly (all tools and parts included), and simple to use for small kids. One thing I noticed is that it even comes with screwdrivers. That does not sounds like a big deal, but it shows how considerate the supplier is.

It comes with three balls, which makes it easy to play without much interruptions. As the ball goes through the basket, the counter automatically records it as a score, and the score can be reset by using the handy remote. The remote is a good idea just in case the hoop is placed somewhere that is out of reach for the shorter kids. Actually, I think it makes it safer because they don't have to climb up to reach it. One recommendation that I have is that these types of toys could come with USB chargers that would make it easy to recharge, but it could also be difficult to remove it every time it needs to be recharged.

The sounds are not loud and serve as a nice feedback. I really like that feature. I saw similar ones at my friends' homes and the sounds can be very distracting.

★★★★★ **Lots of Fun!!!**

Reviewed in the United States on December 2, 2020

**Verified Purchase**

I wasn't expecting too much when I ordered this mini-basketball hoop but I was pleasantly surprised by what I received. The backboard and balls were packaged very tightly and securely, and while there were instructions included, the setup was quick and self-explanatory. I just attached the electronic scoreboard and the brackets with the screws provided, attached the cushions, and then slid the hoop into the backboard and I was all set to go in less than 5 minutes. I really liked the fact that the set included the appropriate screwdriver and also a little pump to inflate the 3 balls that came with it. The balls have some nice bounce to them and can actually be dribbled like real basketballs. The set includes sounds effects - a cheering crowd whenever you hit a shot. While this may sound cheesy, it actually adds a lot of fun to the game. The automatic scoreboard works very well too. I also have a \$300 pop-a-shot game at home and I feel the scoreboard counter on this game works as well as the one that costs 10x the price. Overall, this set is a great little game for both young and old that is well worth the price!
