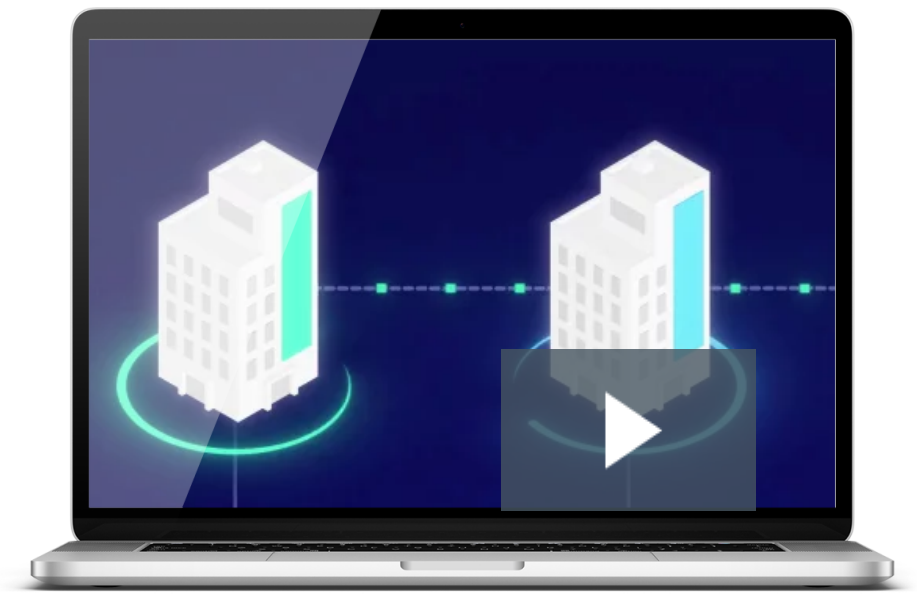
PKWARE

PK Protect



A Full Suite Of **Protection** Capabilities

Many organizations are spending too much time and money on data security and data privacy processes that not only fail, but fail to add value to their business. The PK Protect Suite—powered by PKWARE and Dataguise technology—offers solutions for managing personal

to balance data usage with data protection for minimal risk and maximum value.

Enterprise-Wide Data Protection that Delivers Greater Business Value

Make sensitive data discovery and protection easier with a solution that's intuitive to implement and use, and saves you time, resources, compliance costs, and complication. With the PK Protect Suite, businesses are empowered to work safely with sensitive data to make better business decisions, gain greater customer insights, move to the cloud, and generate new revenue streams.

Close Compliance Gaps

Meet requirements under GDPR, CCPA, PCI-DSS, HIPAA, ITAR and other regulatory and industry mandates.

Improve Security Workflows

Expertise and technology that solves even the most complex security use cases.

Meet Customer Requirements

The capabilities you need to secure customer data, build trust, and gain competitive

PKWARE

Support Organizational Change
