What is Lunar Client?

Lunar Client is a modpack for many versions of Minecraft; these versions include 1.7, 1.8, 1.12, 1.15, and 1.16.

Does the client boost my frames?

Can I use the client on any server?

Is it really free?

I am having trouble launching the client, or it keeps crashing after I launch it, what should I do?

Can I use my own texture pack?

Which mods can I use?

Which operating systems does Lunar Client support?

I found an issue, where can I report it?
