

**BURST**  
**WATER FLOSSER**

[www.burstoralcare.com](http://www.burstoralcare.com)

With great power comes...  
**GREAT FLOSSING**

**IMPORTANT SAFETY INFORMATION**

**DON'T THROW ME IN THE TRASH!**

Hey, this is the captain of your new BURST Water Flosser speaking. Sorry, I didn't mean to shout, but the delightful Dental Professionals who made me want you to know two QUICK things before you start.

**START WITH STANDARD MODE**

If I don't want water on myself, this flosser is very powerful. The Dental Pros warn it'll blow your hair back and make you sneeze. That's why the default setting is STANDARD mode.

When you're ready and have built up your strength, you'll want to try the highest setting - TURBO!

**THERE ARE 3 MODES**

Hold down the smiley face to change modes. Lights will illuminate to indicate mode chosen. See my friend, Mr. Big Manual, for more info.

**I COME FULLY CHARGED**

To turn it ON just press the smiley face quickly on the back.

To STOP just press the smiley again.

**TURBO**

**BURST**
