#### Excellent Battery Life

It's difficult to find a comfortable ear piece, but several options are available with this device. Often significant echo issues, especially with international calls.

#### Excellent pour le prix

Choisi pour voyager en vélo, confortable, appairage et utilisation excellent. Qualité audio et autonomie: tout à fait satisfaisant. Boîtier minuscule, facile à emmener. Bref, un rapport qualité/prix excellent surtout si la durée dans le temps est au rendez-vous.

Great Earbuds, much louder than expected

These fit great and the sound is incredible. I don't think I'll ever need to go up past halfway because they provide such powerful sound. They can be a little weird to actually pull out of the charging case because they're small and have a unique shape, but they fit in my ears perfectly and I have n [...]

Looks like AirPods

The look for these Earbuds is similar to apple AirPods. Used these while working out and they stayed in without any issues. Very light weight and good sound quality.

#### The best substitute so far against the apple airpods.

Though the sound quality is not that great as you wanted it to be but it is not worse, actually for the amount I paid the sound quality is good. I have another ear-pods from a better company than this but this one is much more comfortable than the better branded one. So, overall its worth buying unl [...]

#### Overall pretty good earpods

I've had a few different brands of the inexpensive ear pods. These have a better user control and interface since they can use voice commands and they confirm actions and pairing via voice sound bytes. They take some adjustment to get out of the case but the case holds a charge and a light on the ca [...]

#### Nice design and comfortable

I've used various wireless earbuds. This one has a long stem that's easy to hold, get out and put in the ear, unlike others. The earbud tips are quite comfortable and I could use them for a few hours without feeling my ears hurting. The case itself is made of good plastic material. There's enough ba [...]

**Big sound at a little price**

Your browser does not support HTML5 video. The Oryto earbuds pack a lot of punch at an economic price. I purchased these as an impulse buy. I have been wanting wireless earbuds for quite some time but cannot afford a namebrand pair. When I saw these pop up in my search I fi [...]

**Great sound and quality**

These pair with any Bluetooth device in second. For the price I was kind of skeptical about the quality and level of bass but I was amazed at how great they sound! Very comfortable, lightweight, & when you workout they actually stay in your ear...u like some other earbuds. Awesome value for the pric [...]
