

The Responsible Business Coalition at the Gabelli School of Business

The Responsible Business Coalition (RBC) serves as an incubator for collective action among the leaders of modern business. We collaborate on the most difficult environmental and social issues across today's most dynamic industries—and do so with dignity, compassion, and courage.

Our mission in action:

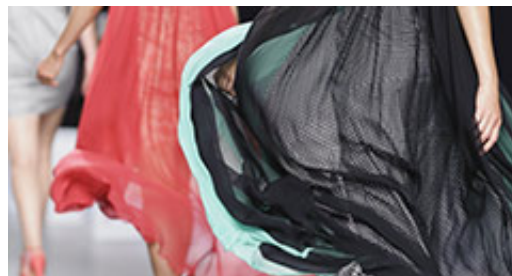

- Convene industry CEOs and thought leaders to share their challenges and develop actionable, scalable business solutions
- Bridge the gap between industry and academia, providing faculty and students the opportunity to solve real-world global problems
- Engage faculty and industry leaders with diverse expertise to participate in the design of impact strategies and better serve business school curricula

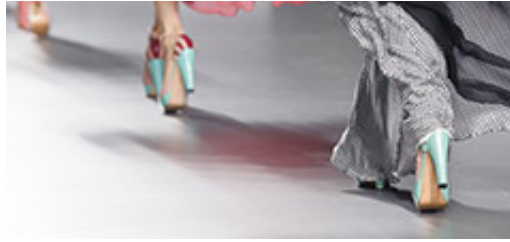

When it comes to purpose, we mean business.

At the Gabelli School of Business, trails aren't followed—they're blazed. Which makes it the perfect home for the Responsible Business Coalition (RBC). Equipped with the real-world knowledge, understanding, and solutions gathered from the most influential leaders of business and society, the Gabelli student experience can continuously advance beyond the traditional. Explore how we're forging competitive differentiation and inspiring positive, global change through business leadership.

Below are areas of RBC focus
