COVID-19 UPD.

AT Overland Equipment is proud to present the **Habitat™ Truck Topper**. Purpose built for overland and adventure travel, the Habitat™ uses high-quality materials and provides a lightweight, yet robust camping platform for your pickup truck.

Designed to fill the void between the traditional topper and slide in camper, the Habitat™ can easily be deployed by one person, revealing a cavernous and functional interior space. The design allows for full standup room inside the bed of the truck under it's protective all-season tent - an exclusive design by Nemo Equipment.

The cantilever sleeping platform, supported by stout 6061 aluminum rods, features a comfortable dense foam mattress that supports up to 600 pounds. Weighing in at just 340 pounds, the Habitat™ is available for both full and mid size pickup trucks.

Base price starts at \$10,000.
