This rich, creamy honey-butter is whipped from golden organic honey and glistening organic sunflower seed oil for a silky soft feel that deeply nourishes even the driest of skin. It's high in essential fatty acids and vitamins A, E & B, for quick penetrating, long-term moisturization & intensive repair. Our team loves to apply this to our legs and arms - the butter has a thick and luscious consistency that lasts for hours!

Sunflower Honey-Butter is certified – dirt to jar! Certified to NSF/ANSI 305, which ensures each product contains over 70% certified organic ingredients, 100% natural ingredients, use of green chemistry processes and preservatives, and is free of GMO's, synthetic herbicides and pesticides.
