Description

【BRIGHTEST LIKE NEVER BEFORE】 The S2000 flashlight is 3 times brighter than ordinary T6 LED flashlights, can deliver an incredible brightness of up to 2000 real lumens. This mid-size flashlight is big on power but still compact enough to fit in your hands, backpack, survival bag, or car glove compartment.

【SUPER LONG BATTERY LIFE】 Using 4*AA batteries (not include) as power supply, our high lumens flashlight has impressive run times, providing up to 30 hours (low light mode) of continuous operation, or 6 hours (high light mode). Working time is 2 times longer than most of the tactical flashlight in the market.

【3 MODES & ZOOMABLE】 No more cycling through endless modes! Only featuring 3 useful light modes (High - Low - Strobe), it effectively reduces the trouble of switching 5 modes. Just twist flashlight head to adjust the focus for distant observation and wide range illumination. It's ideal for camping, hiking, outdoor, repairs, and other emergencies.

【UPGRADED DESIGN】 With over-heat protection to avoid high-temperature of the surface. This flashlight is made of hard anodizing aircraft grade aluminum alloy, strong and durable for lifetime use. IP67 waterproof design for reliable water resistant. Perfect flashlights for use in the rain, snow or emergency situations.

The flashlight has already survived a couple of falls without even a scratch. On the full brightness setting it appears to outshine my 60w floor lamps. It's so bright I actually use the low setting when outside at night.
