### product description

This actual size self-adhesive hairdress is handmade. It is connected by special 3M medical plaster (on the back of the part). This anti-allergic plaster does not irritate the skin and is easy to stick and remove. If necessary, you can cut, comb or style your beard with wet hands or directly with hair spray.

Trim your beard

If the hair of a mustache hangs over your mouth and complicates eating and drinking, you can trim it. Use small sharp scissors, such as manicure scissors. First, only the basic material needs to be cut, and then, if you feel that the cut is not enough, cut off the beard or beard. If you trim the beard's hair, it may lose its natural appearance-but who knows, maybe you will eventually create a new fashionable form of fake beard.
