

LET'S GET LOUD!

When apartment walls start to close in on you, we're here to help get the wriggles out. Our playspace has an abundance of creativity-igniting toys that will spark some magic with your little one while under your supervision. There's enough to keep your child engaged while you enjoy a hot (or cold!) drink without it going cold (or warm!) Sit back, catch up with a friend, and enjoy a well-deserved break.

When we first dreamed about The Hive, we imagined this space would be open to all at any time during store hours. But until it's safe for us to gather together without worrying about contracting or spreading COVID-19, we're limiting use of the playspace to advanced reservations, limited to 45-minute slots and a maximum of six people (big or small!) In between each, we have a strict sanitizing protocol in place that ensures you and your group leave with nothing more than happy memories.

SIP. SHOP. PLAY.

Rates + Info

Private playspace reservations are available for \$30 per 45-minute time slot and are limited to six guests (big or small!) total. Once a booking is made, the guests are up to you! Bring your pod squad, bring a friend, or just bring your little one and have the space to yourselves. The safety of our team and guests is our highest priority, so these restrictions are created with everyone's health (and fun) in mind.

Children are your responsibility and must be under your direct supervision at all times. **This is not a drop-off facility.**

**Reservations must be canceled three hours in advance to avoid being charged.*

CLEANING & SANITIZING

A HIGHER STANDARD OF CLEAN

When we first imagined The Hive, one of the first things we agreed upon was a commitment to extreme clean within our shop and especially within our playspace. Littles can't always keep fingers out of their mouths (or noses), so we promise that every toy and surface is sanitized in between playdates and an even deeper clean takes place at night, once the shop is closed.

Our cleaning process starts with wiping every surface down with Better Life All-Purpose Cleaner, which safely and naturally cleans up grime using plant-based ingredients.

We follow up with a mist of Clean Republic Disinfectant + Sanitizer, which has been proven to kill COVID-19 on anything that might be touched.

We'll disinfect all touchpoints, including toys and our stadium seating area, to ensure no germ or crumb is left behind, all while using products that have been deemed safe to use around children.

And in building this space from scratch, we also integrated an air filtration system that'll keep the air you breathe clean and free from allergens, irritants, pollution, and airborne germs.

SAFETY FIRST

No children are permitted within the space without adult supervision. That adult can be a babysitter, Mom, Grandpa, Dad, etc., so long as he/she is above the age of 18 years old. We want your children to have fun, but we ask that you ensure their safety while within. We've taken every precaution in building a safe and secure facility but accidents do happen.

THE HIVE.
