## About US

---

Momcozy is committed to supporting new moms on their important motherhood journey. We understand that modern life can be hectic, even more so when a new baby arrives on the scene and breastfeeding begins. We wanted to help, so we set about creating breastfeeding products and accessories that make life much more convenient and less stressful for moms everywhere.

Founded by Athena Pan, Momcozy is passionate about creating the highest quality products at affordable prices because it's only natural that moms want the best for their babies. After extensive research, feedback, and conversations with breastfeeding moms, we had a clear understanding of the type of products new parents want – safe products that work super efficiently; save time; allow mothers to multi-task; and, overall, products that make life less stressful and more comfortable. Our bestselling products include the single pump automatic electric breast pump with a gentle massage mode to stimulate breast milk. It also features a handy memory function to store your favorite functions. Then there's the dual pumps automatic electric breast pump that gets the job done in double time. Good quality, well-fitting nursing bras are also a must-have for any nursing mom. Multi-tasking is prioritized too and there's no better buy than a hands-free nursing and pumping bra in one! Another one of our much-loved products is the hands-free nursing bra accessory that securely holds the pumps in place. As well as creating practical products, we never overlook style either. Our nursing camisoles are functional and fashionable and, of course, super comfortable. We have so many other great items to share with you from electric baby nail files to manual breast pumps, so take a moment to look around the site and discover what's in store.

Above all, we're proud to make products that moms recommend to other moms. Their seal of approval means the world to us. Their feedback is invaluable and allows us to create innovative products with clever design features that benefit moms and their little ones. Our goal is to reach as many moms as we can because our mission is to do whatever we can to help.
